

PROGRAM

GENERAL OBJECTIVES

The **Title of Expert in Neurorehabilitation of the Neurogenic Bladder** is directed preferably to medical specialized in Physical Medicine and Rehabilitation, neurology, urology and other specialties related to neurorehabilitation, who wish to expand their curricular training with a special dedication in the field of neurorehabilitation (therefore, medical specialists fully qualified to exercise the knowledge and skills they will acquire throughout the expert course at the Institut Guttmann).

SPECIFIC OBJECTIVES

- Train experts in the treatment and specialized rehabilitation of people with spinal cord injury and acquired brain damage, as well as the complications of their pathology.
- Prepare professionals with specific knowledge and skills to participate in multidisciplinary work teams, favoring the convergence of knowledge and benefiting.
- Train experts with the necessary skills to lead and coordinate multidisciplinary work teams for the comprehensive care of patients with brain damage.
- Provide these professionals with a work methodology that allows them to generate new knowledge, as well as transferring them to other professionals who put them into practice to the rest of the health device, safely and with quality assurance.

WORK PLAN

- Practical training (40% of the program)
Tutor: Dr. Albert Borau Duran
 - Hospitalization
 - External consultation
 - Day hospital
- Theoretical training (30% of the program)
Tutors: Dr. Albert Borau Duran and Dra. Margarita Vallès
- Research training: (30% of the program)
Tutors: Dr. Albert Borau Duran and Dr. Josep M. Tormos Muñoz

STRUCTURE

The program lasts 47 weeks, with a weekly dedication of 9 classroom hours and 26 practical classroom hours.

The different modules that make up the program are formed in parallel. Given the eminently practical nature of the proposal, all activities converge throughout the student's training program.

REQUIREMENTS

- Have the degree of Bachelor / Degree in Medicine and the specialist in Urology or the corresponding receipt for its processing.
- Foreigners: to process the application it is essential to present the homologation of your medical degree and the specialist certificate.
